Module 3 – Introduction to Video Production

Module 3: Introduction to Video Production

Unit 2 : Equipment and Pre- Production

Sound Capture

Common Causes of Unwanted Noise

Refrigerator

If a bad noise can't be stopped then, perhaps, show the source of the noise in the film so that the viewer is no longer distracted by curiosity

Office lighting

Computer Server

Air conditioner

Sound and Picture Synchronisation

Why do you use a Clapper Board?

Sound and Picture Synchronisation

The clapping gives a visual 'moment' which you film
(the sight clapperboard closing)

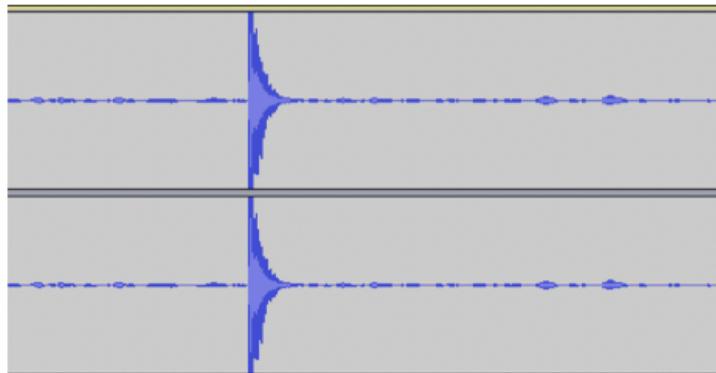

If you don't have a clapperboard you can simply clap your hands, once, loudly

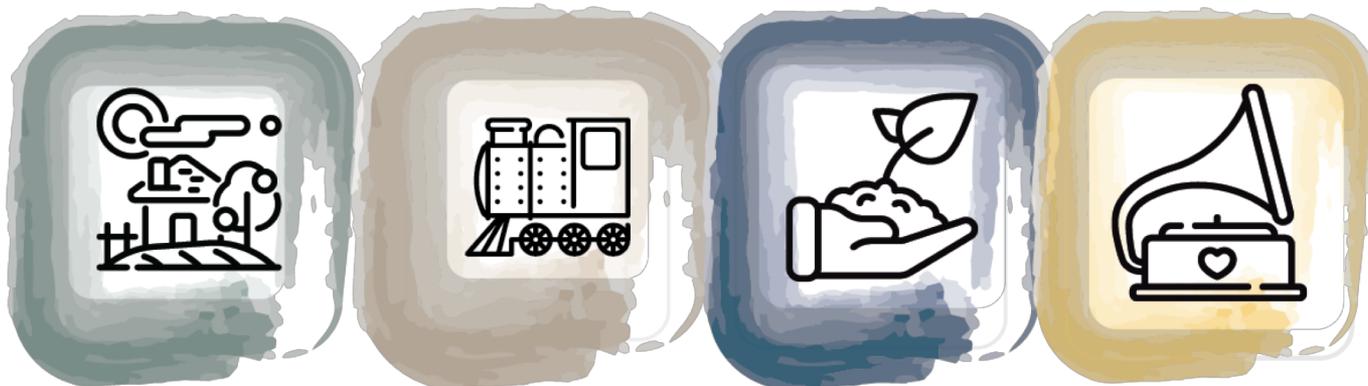

In editing, match the visual moment with the audio moment and your film's sound and picture will be synchronised.

... and an audio moment which you record through your audio recorder
(the noise of the clapperboard)

The illustration shows sound on a timeline in the free sound editing software 'Audacity'
